

Ken and three of his friends love to sing and have decided to form a barbershop quartet. Each man has a different voice part. Each man also has a different favorite song (including "Maria" and "Sunrise Sunset") that the group performs. From the clues below, can you match each man with his voice part and favorite song?

	Baritone	Bass	Basso profundo	Tenor	Dreaming	Maria	Summertime	Sunrise Sunset
Ed								
Jim								
Ken								
Tim								
Dreaming								
Maria								
Summertime								
Sunrise Sunset								

1. The baritone prefers a song that begins with the letter S.
2. Ed doesn't sing baritone, and Jim doesn't sing basso profundo.
3. The four men are Ed, the tenor, the man whose favorite song is "Dreaming," and Tim.
4. The bass likes the song "Summertime."

LETTER PERFECT BY MARGO CHASE

For years here at Lovelace Press, we have specialized in epistolary romances, tales of romance told via letters. However, in the interest of keeping up to date with the contemporary reader, we are proud to introduce a brand-new line of books with a more modern feel. Each month (May through September), we will be publishing a different book, the heroine of which uses a different mode of communication (including text messaging) to tell her story. Can you determine the month we are publishing each book, as well as the mode of communication used by its heroine?

	Cecilia	Greta	Matilda	Ophelia	Winifred	E-mail	Instant	Post-it	Text	Voice mail
May										
June										
July										
August										
September										
E-mail										
Instant										
Post-it										
Text										
Voice mail										

1. *Matilda* will be published the month after *Winifred* and the month before the novel narrated entirely in Post-it notes.
2. *Ophelia* is narrated in e-mail.
3. The books coming out in June and August are *Cecilia* and the one related by instant messaging, in some order.
4. *Greta* will appear two months before the book related by voice mail.
